MASTER

Solely made in Italy using only selected materials like Aluminium 601 and ABS reinforced with Carbon microfibers, our new Master seatbox can provide maximum stability and versatility , keeping top level comfort and lightness. The frame of the new Master is fully made in Aluminium, we have added levels to easily find the correct position, and thanks to the 30mm telescopic legs with oversized anti mud feet it is possible to place this seatbox in any swim. The Seat pillow is made using top quality gel to ensure proper posture, eliminating stress on your back. The wide range of interchangeable accessories and the possibility to remove the lower drawer, give infinite customizing options to the competition angler. All the rigs can be stored safely on the inner modules which provide good aeration to keep them dry, all the non-deformable ABS drawers are safely closed with a magnet. Right below the seat you can find a complete set of strong rig winders. The New footplate with improved grip and adjustable connection for keepnets, and the new Feature with reduced tolerance to avoid any problems with lines. The new Master seatbox is sold with a number of useful accessories.

NITRO

MADE IN ITALY ■ ■ ■

Designed to have infinite customization possibilities, optimizing space and flexibility to suit individual needs, reducing weight and increasing comfort. We have made all this without compromising stability and reliability, using 30mm telescopic legs and oversized anti mud feet. The upper frame is independent and can be adjusted on height, and thanks to the gel seat pillow allows you to adjust your position to have the most natural and comfortable posture. In the lower part of the frame you can find an adjustable box with handle, lid and a 20mm ledge. Non-slip footplate with adjustable connection for keepnets.
